January 2012

HAPPY NEW YEAR

Let's hope 2012 is a good year for everyone.

Christmas Day

110% Could not have gone any better,
This year Richard had requested we do pre orders, something we have not done before, this was definitely the right thing to do and played a big part in the overall success of the day.

New Years Eve

As hoped, our New Years Eve was very much a community event; future years may see us do something similar. We received an email which read "A great big thank to you for last night it was great - what a way to see in 2012 surrounded by lots of lovely friends in our lovely local"

A Successful Festive Season

All as far away as ever, time to focus on our ongoing plans for 2012.

NEW BAR REFURB COMPLETE

Space Space Space

A more modern feel, yet, we have again been able to take care not to detract from the traditional country pub look.

Come take a look, photos will go onto our web site but may take a week or so.

Mini Refurb progress report.-

We have opened up the wall at the end of the bar. We have removed the fixed seating from in front of the bar. The bar itself has been stripped down and re-surfaced. The back bar has had a colour change to the paneling and extra lighting added, all the walls and ceilings have been repainted a lighter colour, new curtains and refurbished bar stools and the sofa in full view. New glass wash and sink relocation. So, although there are some finishing touches to be done, we can remain open while we complete them. The 2 days we closed were so productive, they were long days, Rory, Karl, Richard and Alan once again pulled out all the stops. The result is uplifting, and proves just what can be achieved.

LAST MONTH WE WROTE as of January

Debbie's Column

Issue No 14

The Bar Refurb:- contemplation, complications, responsibility and result, no one wants to get it wrong, I don't think we did.

It is hoped that the changes we are making will kick start 2012, our pub, the food we serve, the welcome, it's all second to none. The days are nice and busy, but at times I am a little disheartened when I cannot pin point the ingredient needed to encourage more evening trade..... Keep trying hey.
